

GREAT TEW PRIMARY SCHOOL

Peter Collins, Parent Governor

Since 2010, I have supported Great Tew Primary School as a Parent Governor, Vice Chair of Governors and Chair of Governors. I have returned to the role of Parent Governor in my most recent term of office.

I am a chartered civil engineer by profession and have helped the school through various building projects. This has involved securing grant funding and working with contractors prior to and throughout construction.

I have been a member of various committees, panels and working groups to help secure the strategic direction of the school. This has been achieved through a balance of pro-active choices and responding to the various drivers that affects the school i.e. finances, academic trends and health, safety & wellbeing.

Developing all aspects of the school is underpinned by effective communication with the local community and the parent community. We are fortunate to have an outstanding Headteacher at Great Tew Primary School and I, along with other governors, provide support and challenge as appropriate.

Great Tew Primary school has consistently offered a nurturing and rounded experience to all of its pupils, who have consistently shown excellent progress and attainment. I feel very fortunate to have been part of this governing body which sustains such a high level of care and attention to primary education.
